

US SUPPLIERS LTD
You want it, Let US Supply it.
Quality Pre Fab Panels
TEL: 682-3236

Company Profile

About Us

We are a company with over 15 years of experience in the Pre-Fabricated Construction Industry. Our mission was to provide Pre-Fab Maintenance services to schools that were unable to find this type of assistance. Since then, we have grown the company based on our experience and expertise to include construction works, offering a complete solution package to customers both locally and abroad.

Our company maintains strict standards and quality control for all our customers. Through our strict standards, we have been able to secure many clients over the years. We continue to grow every day. Our services deliver what most other providers hesitate to do, such as free site visits and quotations. Our work is consistently being recognized both locally and regionally, as we have a dedicated team focused on satisfying all our customers' needs. All our team members undergo regular training, both off and on the job, and are encouraged to continuously improve their knowledge base so that we are able to address any problem that we may encounter.

We are looking forward to building long and successful relationships with all our potential clients, as we believe this is necessary.
